In order to restore the missing **File** menu from outlook 2003 follow the next 3 steps.

1. Close Outlook 2003
2. Find the file "**outcmd.dat**" and delete it.
3. Start Outlook 2003

Default location of this file is under C:Documents and Settings"your profile"Application DataMicrosoftOutlook

Replace "your profile" with the name of your profile folder (usually your username).
